

PTCOG ECR meets IBA

Dear ECR-members,

We are excited to invite you to our "Get to Know IBA" sessions at the PTCOG conference! This is a unique opportunity for you to register for a 15-minute slot to talk with an IBA expert at our booth.

Our experts are eager to share their knowledge and insights with you. We believe that by getting to know professionals in the field and learning about their studies, career paths, and experiences, you will find inspiration and have all your questions answered.

To help you choose who you want to talk to, the experts' bios are detailed in the document below.

[Register now](#) to secure your slot for a one-on-one conversation with an IBA expert.

We look forward to seeing you at PTCOG!

Best regards,

The **IBA** Proton Therapy Team

IBA EXPERTS

Guy Berger

Education

- Master's degree in Nuclear Engineering
- Master's degree in Electronical Engineering
- University certificate in radioprotection expertise

Work Experience

- 20+ years of experience at the Cyclotron Research Center at the University of Louvain
- Project manager at UCL
- Radioprotection Expert

Current role at IBA

- Tender Manager

Valentin Beublet

Education

- Master's degree in Engineering (Mechatronics)

Work Experience

- PT Installation: positioning engineer, site technical leader, Installation SME
- Head of Project Management (Industrialization/Site Operational Excellence)
- Program Manager (DynamicARC)

Current role at IBA

- Head of Program Management (Proton Therapy)

Mou Chergou

Education

- Master's degree in Engineering (Software & Mathematics)

Work Experience

- Diverse roles at Elekta from R&D to Education to Project management
- Elekta Linacs and Software Sales Director Middle East & Eastern Europe
- Varian Proton Therapy Sales Director EMEA, CIS & India

Current role at IBA

- Vice President of Commercial Affairs EMEA

Charlotte Cirriez

Education

- Master in Biomedical Engineering

Work Experience

- R&D Requirements & Test Engineer
- Product Change Manager

Current role at IBA

- Strategic Product Manager
 - Manages different strategic programs
 - Roadmap definition, value propositions, strategic partnerships

Vincent Collignon

Education

- M.Sc. Electrical Engineering and M.Sc. Mechanical Engineering
- Business Administration

Work Experience

- Project Manager on first Proton Therapy projects at MGH, and UFHPTI
- Director of US Operations, based in Jacksonville, FL
- R&D Director, Beam Physics

Current role at IBA

- Director, Business Development
- Customer Business

Gaelle Coppe

Education

- Master's degree in Business Engineering

Work Experience

- Downstream Product Manager: Support commercial and marketing activities for new developments, development discussions with Third Party providers
- Sales Support Associate: Answer RFI and RFPs, Costing, Support contract negotiations

Current role at IBA

- Product Line Manager ProteusPLUS : lead the Product line strategy, value proposition and positioning. Manage lifecycle and monitor performance. Define Product Line roadmap

Keith Gatermann

Education

- Master's degree in Business Administration

Work Experience

- Leader of the team that creates quotes and answers RFI/RFPs
- Regional Product Manager at IBA
- Field Service Engineer at IBA
- Nuclear Electrician's Mate in the US Navy

Current role at IBA

- Head of Offer Creation
 - Support the Commercial Team to build IBA's offering for quotes, RFI, RFP, and government tenders

Frédéric Genin

Education

- Master in engineering (Power electronics)
- Short MBA in INSEAD

Work Experience

- Field service engineer
- R&D product manager
- Production manager
- Product manager and Marketing manager

Current role at IBA

- VP Business Development
 - Customer satisfaction
 - Customer business

Romain Gérémi

Education

- Master's degree in bioengineering (Biomolecular engineering)

Work Experience

- FLASH Project Manager

Current role at IBA

- FLASH Program Manager

Gery Gevers

Education

- Msc degree Electronical Engineering
- YMP INSEAD

Work Experience

- Various jobs as project manager
- Project manager first ProteusPLUS @MGH
- Lead PT project and service teams
- Lead R&D team
- Lead digital corp team

Current role at IBA

- Strategic Program Director

IBA EXPERTS

Luk Herremans

Education

- Master's degree in Physiotherapy
- Business Administration

Work Experience

- Clinical research associate at University Hospitals Leuven
- International Product Specialist Brachytherapy
- Variety of commercial management roles

Current role at IBA

- Chief Market Officer
 - Global head of commercial and market related activities

Guillaume Janssens

Education

- Master in Electrical Engineering
- PhD in Image Processing applied to Radiotherapy

Work Experience

- Researcher in Radiotherapy at UCLouvain
- Researcher at IBA
- Professor at UCLouvain

Current role at IBA

- Research Expert
 - Fields of expertise: proton arc therapy, CBCT imaging, image processing, moving tumors, prompt gamma imaging, adaptive radiotherapy

Aurélien Jongen

Education

- Master in Medicine

Work Experience

- Radiation Oncology Resident at Zürich University Hospital (USZ)

Current role at IBA

- Clinical Education Manager
 - Driving the educational program
 - Supporting the commercial team to promote the benefit of Proton Therapy

Yves Jongen

Education

- Professional Engineer in Electronics
- Master in Nuclear Physics

Work Experience

- Director of the Research Center for Cyclotrons at the University of Louvain
- Founder and Chief Research Officer of IBA
- Leader of the team that developed IBA proton therapy solutions

Current role at IBA

- Founder of IBA and Managing Director
- Chief Technology Officer
 - Inspirational mentor

IBA EXPERTS

Kiem Lam

Education

- Master's degree in Electronic Engineering
- Master's degree in Business Administration

Work Experience

- 20+ years of experience in the Medtech industry
- Various engineering roles in R&D and Operations
- Product Marketing and Product Management

Current role at IBA

- Head of Product Management, Proton Therapy
 - Leads product strategy, roadmap and lifecycle management

Olivier Legrain

Education

- Master's degree in Economics

Work Experience

- Finance, Business Development, M&A
- President of several Business Units
- Chief Strategy Officer
- Board member in variety of companies

Current role at IBA

- Group CEO and Managing Director

Ali Onuralp

Education

- Master in Medicine at Universität Hamburg
- Business Administration

Work Experience

- International Sales Manager
- Marketing Director
- Business Consultant

Current role at IBA

- VP Commercial Operations, Americas

Tina Pfeiler

Education

- PhD in Physics
- Master's degree in Medical Physics

Work Experience

- Medical Physicist at the West German Proton Therapy Centre Essen
- Technical Lead and Sn. Medical Physicist at Siemens Healthineers

Current role at IBA

- Strategic Product Manager
 - Lead strategy, roadmap, and value definition for strategic programs to deliver meaningful customer and business impact

Julie Rassart

Education

- Master's Degree in Business Administration (MBA)
- Post Graduate Degree in accounting expertise, consolidation and auditing standards

- After 6 years as financial auditor/controller, I have started my journey in Healthcare and life science industry more than 15 years ago
- Vendors Contract Manager for PT Service
- R&D manager - release and deployment: define & deliver the roadmap, lead teams
- Business Intelligence Manager for Operations : leading digital ambition for operations
- Service - Strategic Stock Manager

Current role at IBA

- Service Strategy Director - Proton Therapy
 - Define the service strategy from short term to long term vision, based on service feedback, experiences and financial targets
 - Translate the strategy into operational plans, service improvement initiatives and guide their realization
 - Build strong and strategic alignment inter-departments

Marc Van Der Burght

Education

- Master's degree in Mechanical Engineering

Work Experience

- 30+ years of experience in Engineering & Medtech industry
- Project Manager
- Head of Operations (Projects, Service, Manufacturing & Supply Chain)

Current role at IBA

- Head of Proton Therapy R&D
 - Leads product development activities

IBA EXPERTS

Catherine Vandenborre

Education

- Master's degree in Business Administration

Work Experience

- Finance, change management, M&A
- Various roles in the energy sector
- Board member in different companies

Current role at IBA

- CFO & corporate lead at IBA

François Vander Stappen

Education

- Master in Electrical and Electronical engineering
- Master in Medical Physics

Work Experience

- On-the-field cyclotron and beam calibrations
- Proton Therapy R&D
 - Developing improvements and upgrades to delivery techniques
- Product management industrial irradiation solutions (sterilization, phytosanitary)

Current role at IBA

- Research Expert on ConformalFLASH
 - Developed and installed a ConformalFLASH upgrade in an existing PT treatment room

Alexandre Wattelar

Education

- Master's degree in Engineering (Material)

Work Experience

- Program Manager (Dosimetry for Particle Therapy)
- Product Owner for myQA iON (PSQA with Monte Carlo dose simulation)

Current role at IBA

- Product Marketing Manager for IBA's proton therapy solutions.

Dr. Ronald Wichern

Education

- Physicist, PhD

Work Experience

- Quality and Regulatory
- Process management

Current role at IBA

- Chief Quality Officer

ABOUT IBA

IBA is a **world leader** in particle accelerator technology.

It designs, produces, and markets innovative solutions for the diagnosis and treatment of cancer and other serious illnesses, and for industrial applications such as sterilization of medical devices, phytosanitary treatment, or material enhancement. Around the world, thousands of hospitals use particle accelerators and dosimetry equipment designed, produced, maintained and upgraded by IBA, making its mission to protect, enhance, and save lives true. IBA's life-driven mission and the open relationships it has built with customers and partners over time, together with its innovative mindset and willingness to always strive for technological and scientific progress, make IBA a unique company.

It is characterized by a deep human connection that is illustrated by its tagline :

Through its four core activities: Industrial Solutions, Radio Pharma Solutions, Proton Therapy and Dosimetry, it offers solutions that allow them to take a fully integrated approach to health and environmental matters.
