PROTON  
THERAPY

# Career evolution – from 2001 till now

1999 – Kassel University - Germany  
**Doctor of Philosophy-PhD- Physics**  
*PhD thesis: A dosimetry system for fast measurement of 3D depth-dose profile in charged-particle tumor therapy with scanning techniques*

1999-2000 – Germany  
**Researcher in Gesellschaft fuer Schwerionenforschung**

2001-2005 - IBA - Belgium  
**Project development manager**

2005-2008 – IBA - Dosimetry - Germany  
**Project development**

2008-2010 – IBA - Belgium  
**Product Development Manager**

2010-2023  
**Compliance Manager**

From 2023  
**Technical Standards and Regulations Manager**

Caterina Brusasco

# Career evolution – from 2011 till now

2007 - Université de Namur – Belgium

**PhD in Physical Sciences – Materials Science**

2007-2010 – University of Washington & FNRS - USA

**Post-Doc NIH / Bio-Engineering**

2011-2016 – IBA - Belgium

**R&D Project Manager –  
Accelerators team**

2016-2023

**Head of Product Development and R&D**

2023-2025

**Head of Product Management**

From 2025

**Head of Innovation & New  
Applications Business  
Development**

JérémY Brison

# Career evolution – from 2015 till now

May 2011 — Instituto Superior Técnico, Portugal

**PhD in Biomedical Engineering**

*PhD thesis: Medical Ultrasound B-Mode Modeling, De-speckling and Tissue Characterization - Assessing the Atherosclerotic Disease*

2015-2019 - 2011-2016 – IBA - Belgium  
**PT R&D System Engineer Imaging**

2019–2025  
**PT R&D Requirements and  
Verification Team Manager  
Imaging & Positioning**

José Séabra

From 2025  
**PT Head of Clinical Solutions & Validation**

# Career evolution – from 2013 till now

Julien Smeets

2012-2017 - IBA - Belgium  
**Research project manager**

2017-2019 - IBA - Germany  
**Research project manager**

2019-2021 - IBA - Belgium  
**Research project manager**

From 2021  
**Research team manager**

2012 – FNRS@ULB in collaboration with IBA  
**PhD in Engineering Sciences**  
*PhD thesis: Prompt gamma imaging with a slit camera for real time range control in particle therapy*
